

SIGNALYSIS NEWS

November / December 2017

To deliver the ultimate solution experience to our customers with unsurpassed integrity!

I guess it's just the kid in me; but I have to admit that I still get excited this time of the year. I have fond memories of the advent calendars, competing to see who could string the most popcorn on the tree, hunting for Santa's hiding place and gathering around the fireplace. I can't wait – it's even more fun with the grandkids.

These past twelve months gave us a lot to be thankful for. We saw the Signalysis family grow, welcoming new staff, employed a number of students in our co-op program and contributed to many of your local charities. One of the things I look forward to each year is the opportunity to meet with our customers. This year I was able to do just that through on-site visits, trade shows, golf outings, and training sessions. I'm hoping to do even more in 2018.

For you first time readers, this is our bi-monthly newsletter - an opportunity to share some news about our company and industry. In this issue, you'll read about our Automotive Production Inspection Systems, learn about our LabVIEW development capabilities, and our 2018 seminar series.

On behalf of the entire Signalysis family, I want to offer our thanks and HUGE Merry Christmas and best Holiday wishes to each of you and your families. We thank you for your business and look forward to working with you in the coming months.

Sincerely,

Neil Coleman
President

Automotive Testing Expo 2017 in the Books

Our range of [automotive](#) quality inspection test systems was on full display at ATE 2017. We also showcased our [SigQC software](#), [LabView Integration](#), [Software Development](#) and related [Services](#).

Just because the show is over doesn't mean we can't discuss your quality inspection challenges. We're always interested to discuss those NVH detection issues that keep you up at night. Please contact [Neil Coleman](#) or [Steve Johnson](#).

Steve Johnson (left) presents Josh Sparks (right) with his new Go Pro. Congratulations Josh!

And the Winner is...

Congratulations to our ATE 2017 Go Pro prize winner:

Josh Sparks of Hanon Systems

Thanks to all who entered - you're all winners in our book! (Sorta... Just not as big of a winner as Josh).

Automotive Test Systems

From steering columns and power seats to sunroofs, breaks, drive trains and beyond, Signalysis bumper-to-bumper [automotive IQC Test Systems](#) replace subjective tests with advanced vibration, sound, motor current and travel velocity algorithms and metrics.

Based on more than 30 years of experience, our proven test systems combine traditional NVH laboratory modal analysis, sound quality, gear testing, and motor dynamics test methods bringing total inspection confidence to your manufacturing floor.

Coming Your Way: Holiday Baked Goods!

The Most Wonderful Time of the Year

Our [Sonny Marie's](#) Holiday gift baskets are being loaded on to Santa's sleigh and will be arriving on your door step just in time for the Holidays.

Not on our Mailing List?

If you aren't on our mailing list just [drop us a line](#) and we'll hook you up with some of the best gluten-free treats this side of the North Pole.

Take it from us... Sonny Marie's gluten-free baked goods are something you won't want to miss out on!

Did You **KNOW**

Did you know Signalysis serves clients across a broad spectrum of industries? Aerospace, Agricultural, Appliances, Automotive, Consumer Goods, Energy/Power Generation, Flooring, HVAC, Lawn & Garden, Medical, Off Highway Equipment, Power Tools, Rail, Recreation / Entertainment, Transportation, and more.

Read more [here](#).

As a National Instruments Alliance Partner, we are staffed with certified software developers to provide [LabVIEW software integration](#). We will work closely with you to design and develop custom [software development](#) and provide [technical consulting](#) services to meet your quality improvement goals.

Want more information? Get it [here](#).

Signalysis: An Inside Look

Are you interested in a behind the scenes tour of Signalysis? If so, this is your chance to be introduced to some of the people who work to solve the industry's product noise and vibration quality issues.

This short video will give you a quick walk through of a typical day at Signalysis (if there really is such a thing). Just follow this [link](#), sit back, and prepare to be amazed!

2018 Seminar Series

Our one-day seminars provide a basic understanding of sound and vibration

principles along with a practical understanding of end-of-line quality inspection systems. Seminars also includes an introduction to Signalysis quality inspection software, SigQC™ along with a unique opportunity to gain hands-on experience (using your own test parts) during the workshops.

Dates & Locations

- Toledo, OH - February 20
- Mansfield, OH - April 24
- Grand Rapids, MI - June 12
- Rochester Hills, MI - August 21
- Gary, IN - November 6

Hooked on Vibration!

Did you receive your September 2017 issue of *Sound & Vibration* magazine? If so flip to page 8 and read how our own "NASA Bob" Coleman got his start to a stellar career and his many contributions to the industry. Don't have a copy of the magazine? That's OK you can read it [here](#).

Remember, nobody knows vibration like Bob Coleman; and we're making copies of his book available to you while they last. [Learn more here](#).

"Experimental Structural Dynamics: An Introduction to Experimental Methods of Characterizing Vibrating Structures"
